📍 Osman Haji Tayyab & Co. Ireland Rd, Ghanchi Para Karachi

# INTRODUCTION

The story of Osman Haji Tayyab & Co. (OHT) began in the early 1960s when two visionary brothers, Osman Haji Tayyab and Muhammad Haji Tayyab, rebuilt their lives in Pakistan after migration. With nothing but determination, strong values, and a commitment to honest work, they entered the steel trade at a time when the industry was still evolving.

Through their unshakeable integrity, work ethic, and dedication to fair dealings, they quickly earned respect in the market. What started as a small trading setup soon became a name that customers associated with trust, quality, and reliability. What they created was not just a business, but a legacy of trust. A legacy strong enough to survive generations, adapt to changing markets, and continue to thrive even 70 years later. Today, their principles still guide every decision we make, ensuring that the spirit of OHT remains the same as the day it was founded.

# OUR VISION & MISSION

## Vision

---

At OHT, our vision is to remain Pakistan's most dependable and customer-focused steel supplier by expanding our presence nationwide while upholding the values built over more than 70 years. We aim to combine our family-led legacy with modern, efficient, and transparent business practices to support the evolving needs of industries and infrastructure across the country. Through consistency, innovation, and trust, we strive to set long-term standards of reliability in Pakistan's steel sector.

## Mission

---

At OHT, we are committed to supplying high-quality steel products through honest dealings, reliable sourcing, and consistent service excellence. Our approach focuses on understanding customer requirements, maintaining strict quality control, and delivering dependable solutions for projects of all scales. By prioritizing professionalism, accountability, and long-term relationships, we work to ensure our customers can rely on us as a trusted steel partner.

# WHY CHOOSE US?

## Industry Experience

70 Years of generational expertise

## Quality Assurance

Strong market reputation built on trust

## Consistent Excellence

Reliable supply and consistent quality

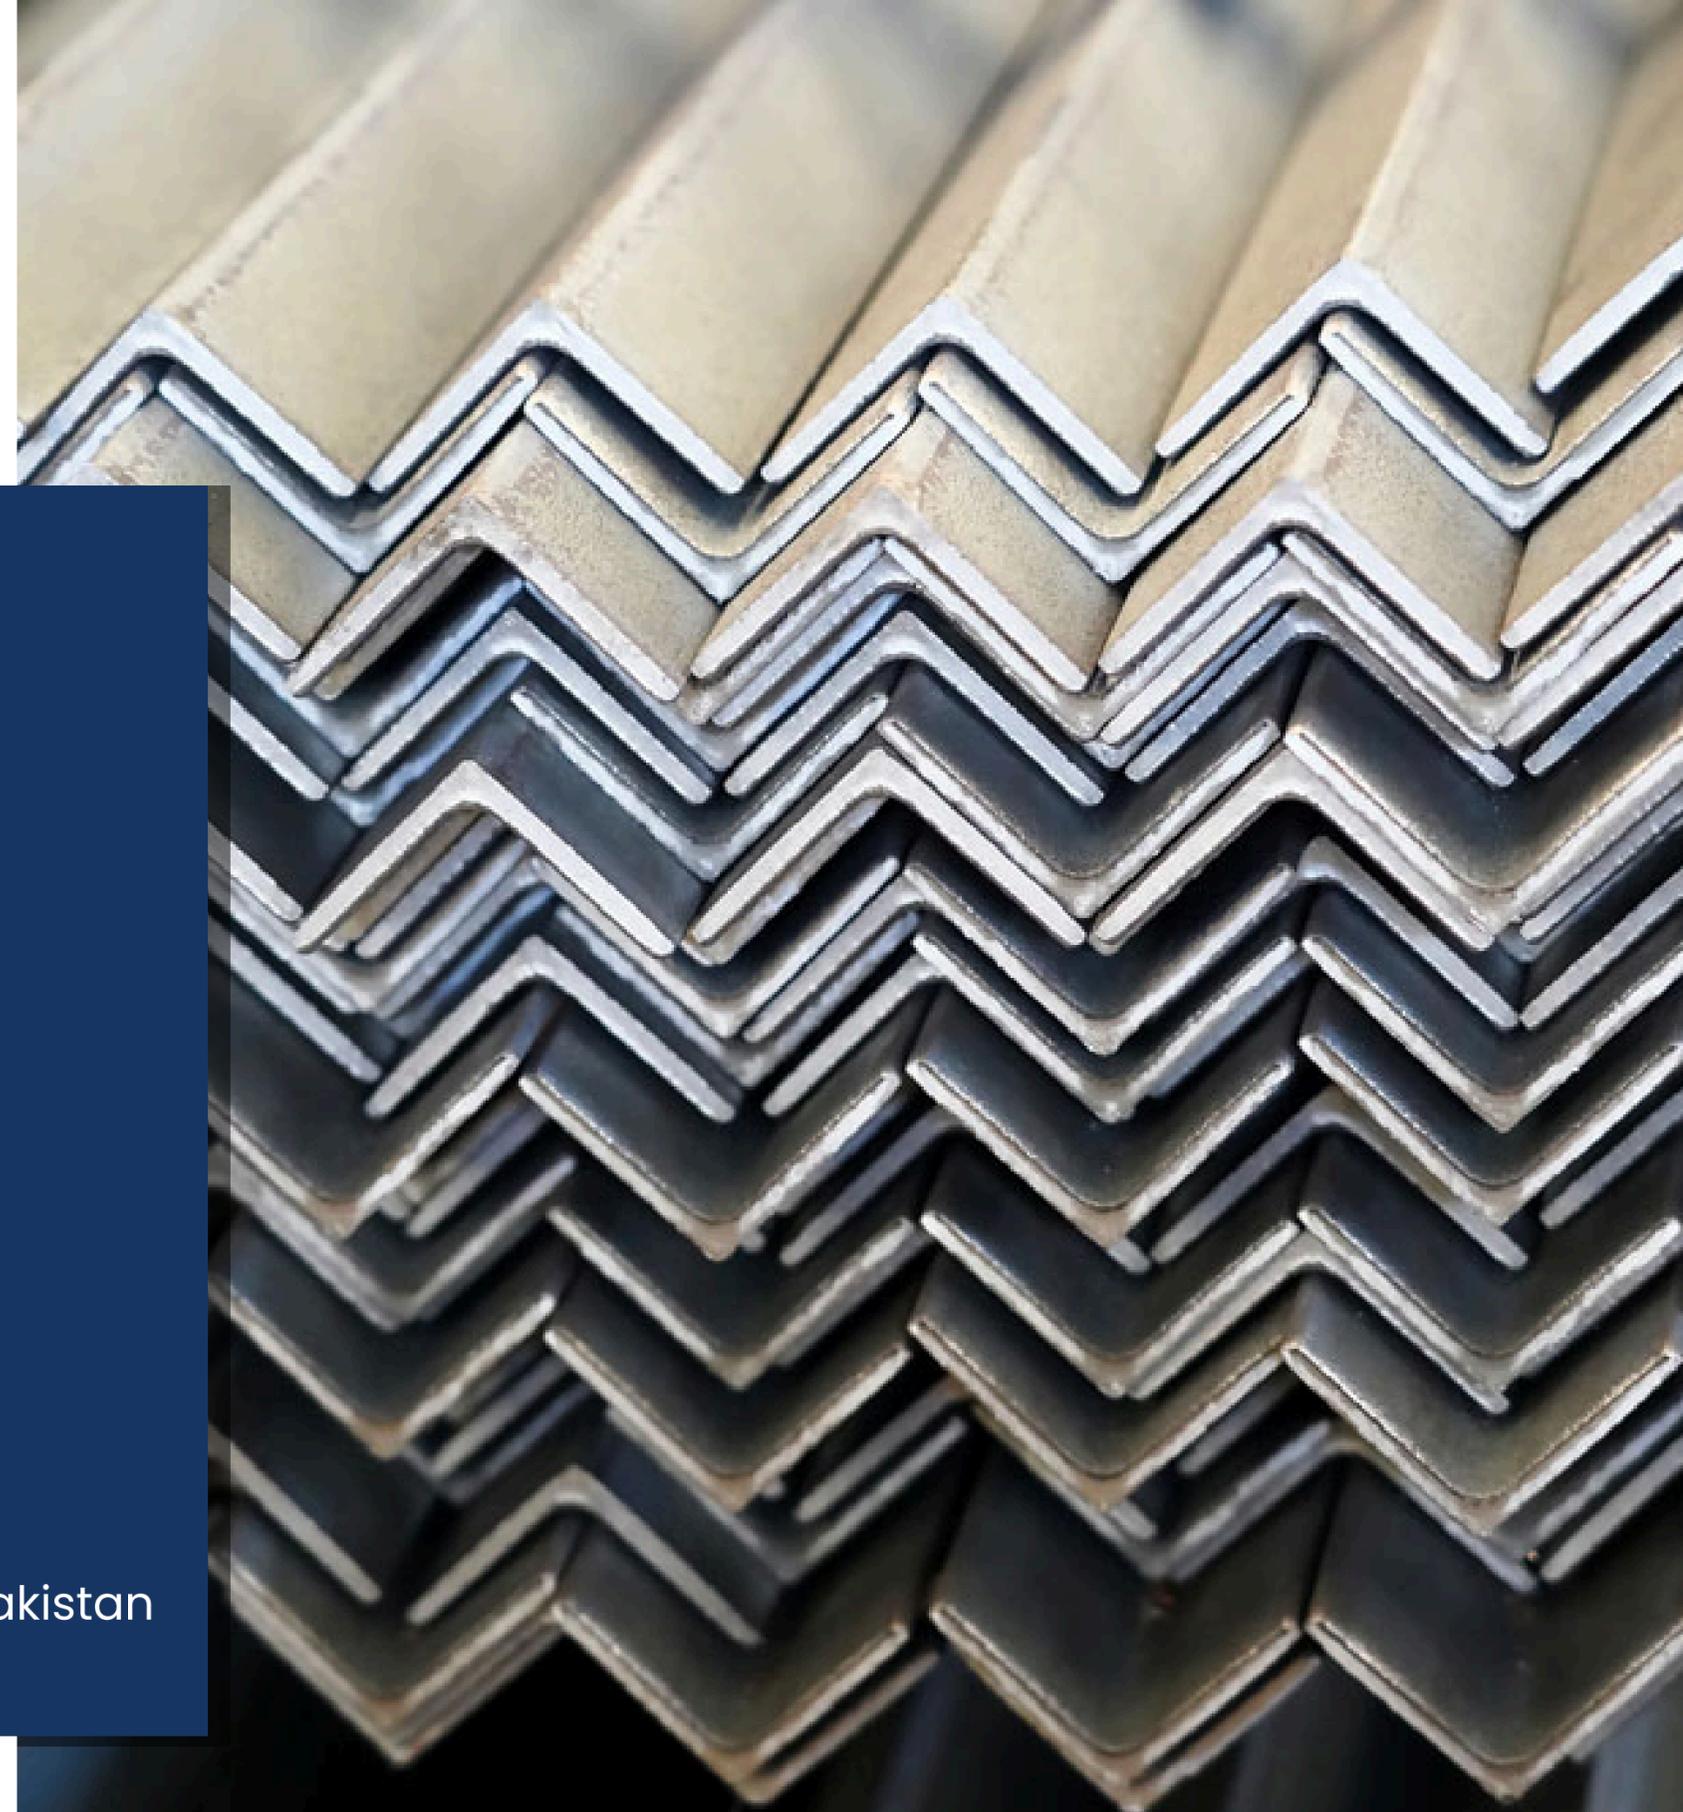

## Complete Coverage

Wide range of steel products under one roof

## Building Relations

Long-term relationships with customers across Pakistan

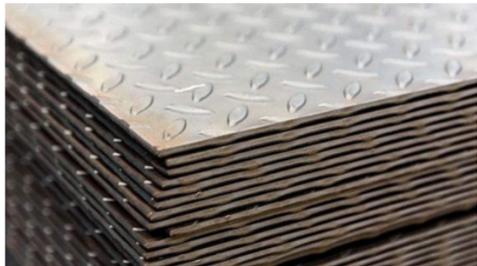

# PRODUCT RANGE

## HRC

OHT's hot rolled steel offers uniform finish, precise thickness, and great bendability for diverse industrial uses.

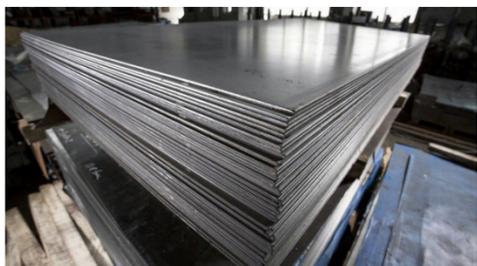

## HRC Chequered

OHT's chequered plates and coils offer strength, durability, and anti-slip performance, with uniform patterns and reliable dimensions for long-term safety and performance.

## CRC

OHT, official distributor of Aisha Steel and ISL, offers fast delivery, cost-effective rates, and reliable commercial/structural grades.

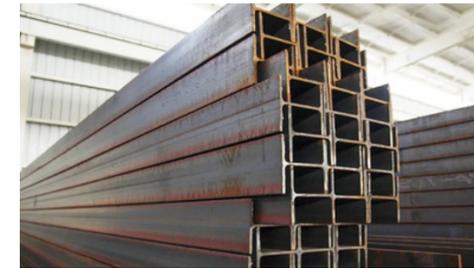

## GP

OHT provides corrosion-resistant galvanized sheets for roofing, ducting, and construction, sourced from Aisha Steel and ISL, with competitive pricing and fast delivery.

## I. Beam

I-Beams (Universal Beams) are designed to carry heavy vertical and horizontal loads with high structural efficiency.

## H. Beam

I-Beams (Universal Beams) are designed to carry heavy vertical and horizontal loads with high structural efficiency.

## Channel

Steel Channels are versatile structural sections used for framing, supports, and mechanical structures.

## Steel Angle

Steel Angles are L-shaped sections widely used for structural framing, reinforcement, and fabrication applications.

## Girders

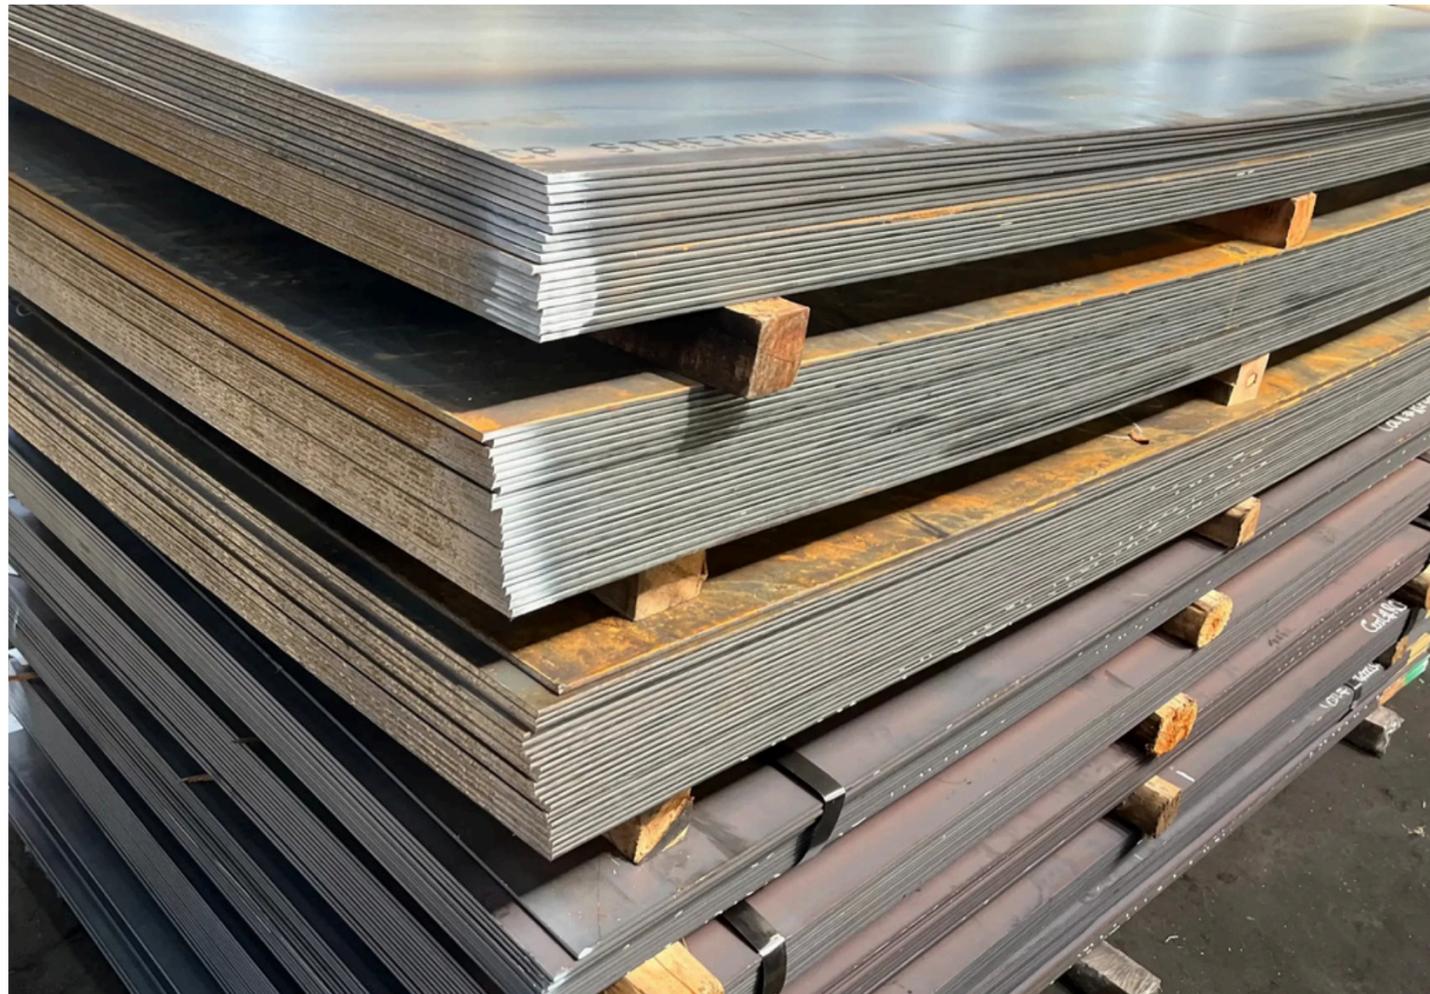

Steel Girders provide exceptional load-bearing capacity and are essential for large-span and heavy-duty structures.

## MS Rail

MS Rail is widely used for structural support, fabrication, and heavy-duty applications, offering strength and durability.

# HOT ROLLED COILS & SHEETS (HRC)

OHT's Hot Rolled Steel is designed for modern fabrication and industrial applications. It offers a uniform surface finish, precise gauge thickness, and excellent bendability, making it ideal for various structural and manufacturing uses.

**Construction Projects**

**Engineering Workshops**

**General Fabrication**

**Machinery And Equipment Manufacturing**

## Origin

Imported from China

## Grades Available

Hot-dip galvanized, coated for superior corrosion resistance

## Thickness & Width

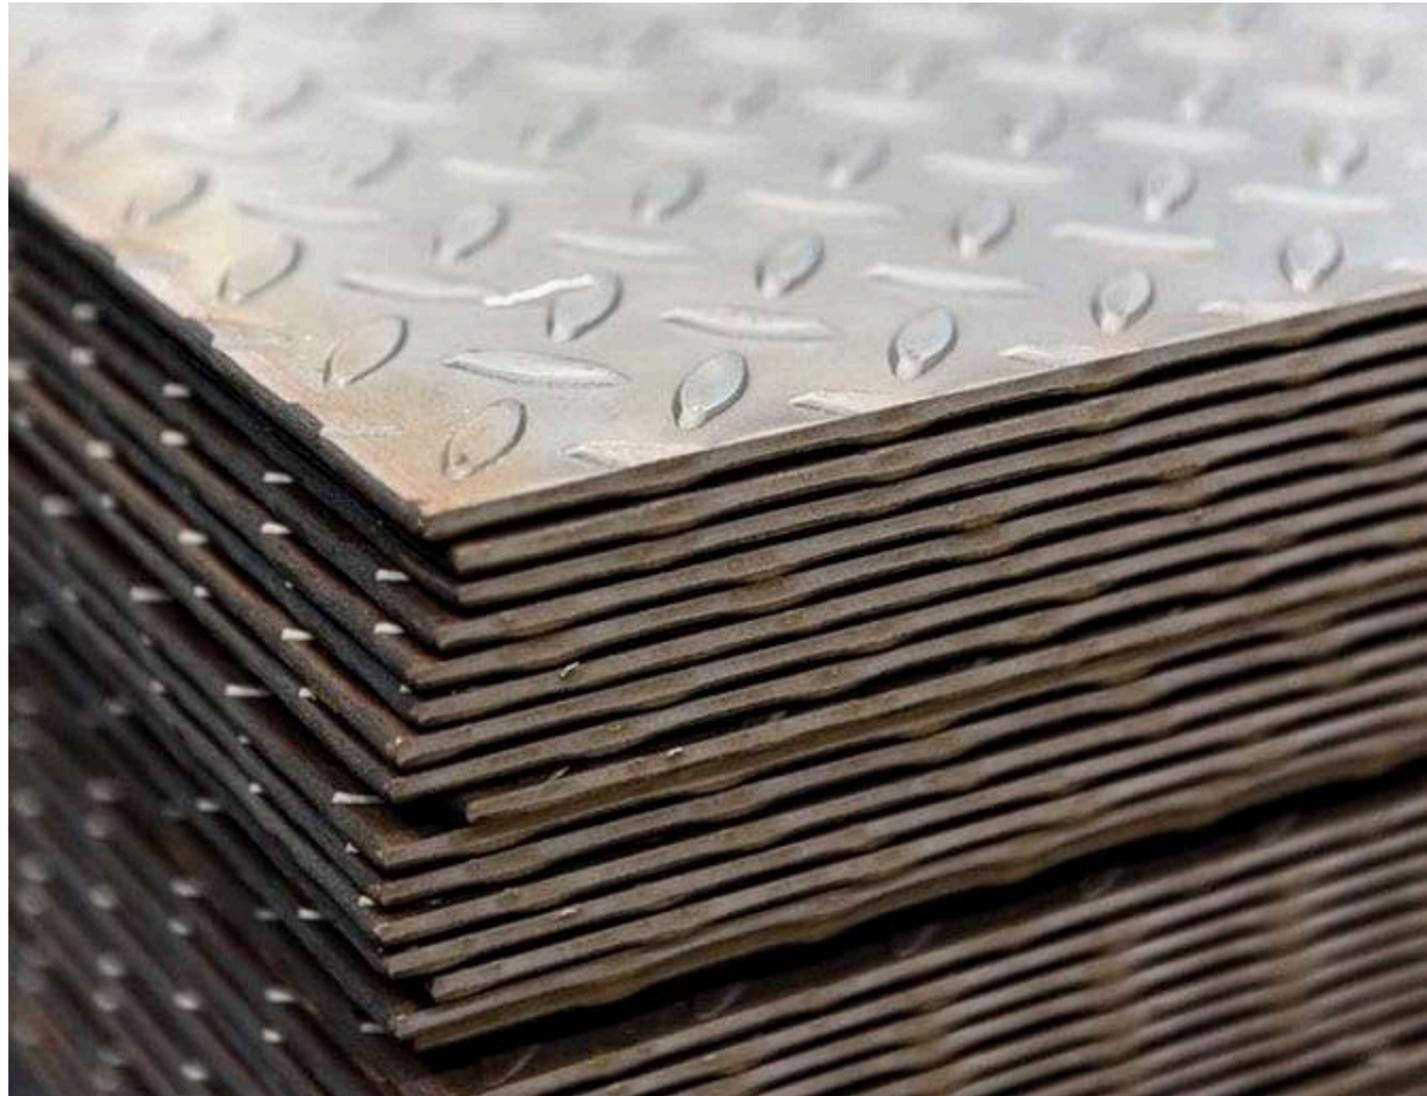

Standard and custom sizes available

## Features

- ✓ Rust and corrosion-resistant
- ✓ Excellent surface quality for roofing, cladding, and industrial use
- ✓ Long-lasting and durable

# HRC CHEQUERED PLATES & COILS

OHT offers high-quality Chequered Plates and Coils designed for applications requiring strength, durability, and anti-slip performance. Manufactured by internationally recognized mills, our chequered steel features uniform check patterns and consistent dimensions, ensuring safety, reliability, and long-term performance.

**Construction Projects**

**Engineering Workshops**

**General Fabrication**

**Machinery And Equipment Manufacturing**

## Origin

China, South Korea,  
Taiwan, Brazil

## Formats

Coils and Sheets

## Width

1000mm – 1500mm

## Thickness

1mm – 10mm

# PRIME IMPORTED CRC COILS/SHEETS

- Official Distributors & Franchise: Aisha Steel and International Steel Limited (ISL)
- Advantages:
  - Cost-effective local rates with exclusive discounts
  - Immediate availability and faster delivery
  - Trusted by leading industries across Pakistan
  - Grades & Sizes: Commercial and structural grades, with optional cut-to-size services

Electrical Enclosures  
And Components

Fabrication Of Industrial  
Machinery And Parts

Metal Furniture  
Manufacturing

## Origin

Imported from  
China

## Grades

Complete range of  
commercial, structural,  
and specialty grades

## Thickness & Width

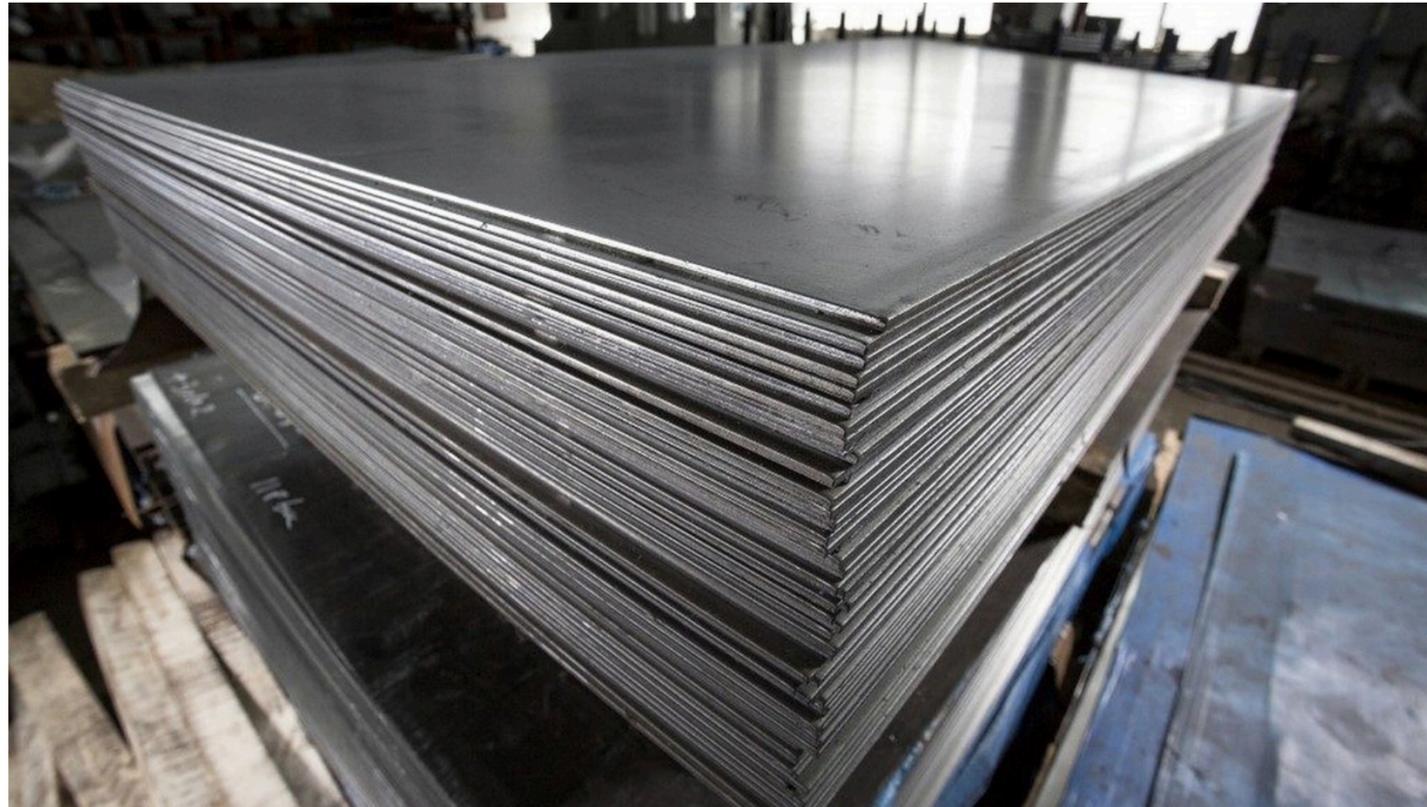

Custom sizes  
available as per client  
requirements

## Features

- ✓ Smooth surface finish and uniform thickness, High tensile
- ✓ strength and durability, Ideal for precision fabrication and automotive applications

# GALVANIZED SHEETS & COILS (GP)

Galvanized Sheets (GP) by Osman Haji Tayyab & Co. (OHT) are zinc-coated for superior corrosion resistance and long-lasting performance, ideal for outdoor and moisture-prone environments.

We supply both imported and local GP sheets/coils from trusted manufacturers like Aisha Steel and International Steel Limited (ISL) ensuring reliable availability, competitive pricing, and consistent quality.

**Industrial Construction Projects**

**Industrial Platforms**

**Structural Components**

**Roofing**

## Origin

Imported from China

## Thickness & Width

Standard and custom sizes available

## Grades Available

Hot-dip galvanized, coated for superior corrosion resistance

## Features

- ✓ Rust and corrosion-resistant
- ✓ Excellent surface quality for roofing, cladding, and industrial use Long-lasting and durable

Roofing & construction cladding

Industrial & fabrication & ducting

Standard and custom sizes available

HVAC & piping systems

Rust and corrosion-resistant Long-lasting and durable

Metal furniture & storage solutions

# I. BEAM

I-Beams (Universal Beams) are designed to carry heavy vertical and horizontal loads with high structural efficiency.

**Construction Structures**

**Industrial Platforms**

**Bridges**

**Heavy Machinery Supports**

## Depth Range

100mm – 900mm

## Grades

SS400, ASTM A36,  
Q345

## Standards

ASTM / JIS / EN

## Thickness

Standard and heavy  
sections available

## Length

6m, 12m, Cut-to-Length

# H. BEAM

H-Beams offer superior strength and stability, making them ideal for high-load and large-scale construction projects.

**Industrial Infrastructure**

**Large-Span Bridges**

**Warehouses**

**High-Rise Buildings**

## Depth Range

100mm – 1000mm

## Grades

SS400, Q345, ASTM

A572

## Length

6m, 12m, Custom lengths available

## Standards

ASTM / JIS / EN

# CHANNEL

Steel Channels are versatile structural sections used for framing, supports, and mechanical structures.

**Industrial Machinery**

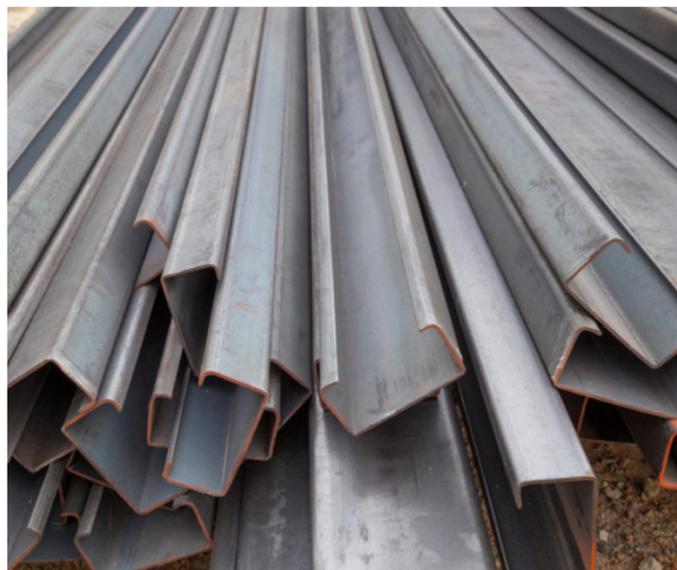

**Bridges**

**Truck And Trailer Chassis**

**Building Frameworks**

**Thickness Range**

3mm – 12mm

**Grades**

SS400, A36,  
Q235

**Length**

6m & 12m

**Depth Range**

50mm – 400mm

**Category**

C-Channels / U-Channels

# STEEL ANGLE

Steel Angles are L-shaped sections widely used for structural framing, reinforcement, and fabrication applications.

**Construction Structures**

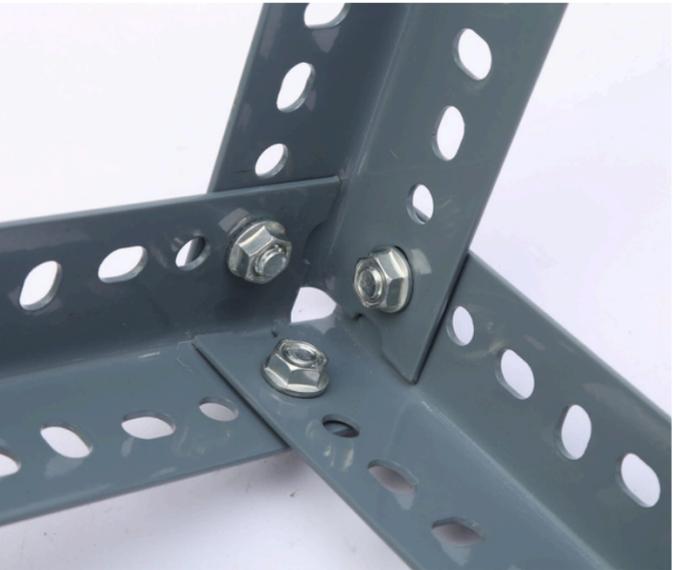

**Bridges**

**Industrial Platforms**

**Heavy Machinery Supports**

### Thickness Range

3mm – 25mm

### Grades

SS400, Q235, A36 (others available on request)

### Category

Equal Angles / Unequal Angles

### Material

Prime imported & high-quality local steel

### Length

Standard 6m & 12m (custom lengths available)

# GIRDERS

Steel Girders provide exceptional load-bearing capacity and are essential for large-span and heavy-duty structures.

**High-Rise Buildings**

**Bridges And Flyovers**

**Warehouses**

**Industrial Plants**

## Standards

ASTM / JIS / EN

## Grades

SS400, ASTM A36,  
Q345

## Depth Range

200mm – 1500mm

## Material

Imported prime steel &  
local mills

## Category

Girders, Box Girders, Custom  
Fabricated Girders

# MS RAIL

MS Rail is widely used for structural support, fabrication, and heavy-duty applications, offering strength and durability.

**Industrial Equipment & Conveyor Systems**

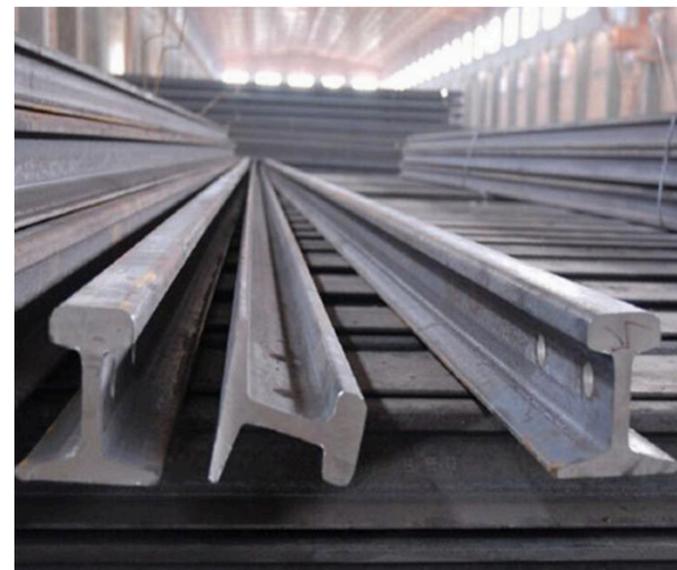

**Industrial Tracks And Crane Rails**

**Railway And Train System**

**Industrial Plants**

## Category

☰ Light Rail / Heavy Rail

## Grades

↔ SS400, Q235, A36 (others available on request)

## Length

▮ Standard & custom sizes

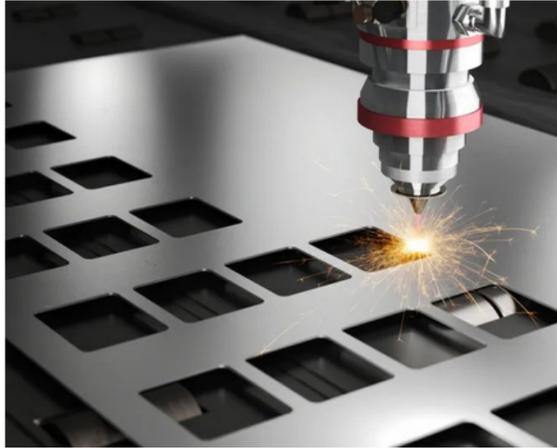

## Material

🚛 Prime imported & high-quality local steel

## Thickness Range

📏 5mm – 40mm

# OUR SERVICES

## Laser Cutting

Our high-precision laser cutting service delivers clean, accurate, and smooth cuts for complex and custom steel components. Ideal for projects requiring tight tolerances and superior finish.

## Steel Shearing

**Steel Shearing Services**  
Our steel shearing services provide fast, straight, and economical cutting of steel sheets and plates, ideal for large volumes and standard sizes.

## Steel Cutting

We provide custom steel cutting services using both manual and machine-based methods to meet diverse project needs.

## Steel Bending & Forming

Our steel bending and forming services deliver accurate angles and shapes for structural and fabrication applications.

## Coil Cutting & Slitting

Our coil cutting service converts steel coils into sheets or required lengths efficiently and accurately.

## Steel Transportation

We provide safe and reliable steel transportation services within Karachi, ensuring timely delivery from our facility to your site.

# LASER CUTTING SERVICES

Our high-precision laser cutting service delivers clean, accurate, and smooth cuts for complex and custom steel components. Ideal for projects requiring tight tolerances and superior finish.

## Capabilities & Benefits:

High-Accuracy Laser Technology For Intricate And Detailed Profiles

Clean Edges With Minimal Heat Distortion

Suitable For Mild Steel, Stainless Steel, And Alloy Steels

Perfect For Fabrication, Engineering, Automotive, And Industrial Parts

CNC-Controlled Cutting For Repeatable Precision

Whether you need one-off custom designs or bulk industrial cutting, our laser cutting ensures speed, accuracy, and reliability

# STEEL SHEARING SERVICES

Our steel shearing services provide fast, straight, and economical cutting of steel sheets and plates, ideal for large volumes and standard sizes.

## Key Advantages:

Accurate Straight-Line Cutting With Uniform Edges

Ideal For Large Sheets And Plates

Cost-Effective For High-Volume Processing

Supports multiple thickness ranges

Reduced Material Wastage

Shearing is the perfect solution for pre-fabrication processing, ensuring your sheets are ready for bending, welding, or further fabrication.

# STEEL CUTTING SERVICES (MANUAL & MACHINE)

We provide custom steel cutting services using both manual and machine-based methods to meet diverse project needs.

## Our Cutting Solutions Include:

Precision Cutting For Plates, Sheets, Angles, Channels, Beams, And Profiles

Manual cutting for custom or irregular requirements

Machine Cutting For Consistent, Repetitive, And Bulk Jobs

Cutting As Per Length, Width, Drawings, Or Customer Specifications

This service ensures you receive steel that is ready to use, saving time and labor at your site or workshop.

# STEEL BENDING & FORMING SERVICES

Our steel bending and forming services deliver accurate angles and shapes for structural and fabrication applications.

## What We Offer:

CNC And Hydraulic  
Bending Machines

Precise And Repeatable  
Bends

Custom Angles And  
Profiles

Suitable For Sheets, Plates,  
Bars, And Structural Steel

Ideal For Construction, Fabrication,  
And Industrial Assemblies

From simple bends to complex shapes, we ensure dimensional accuracy and structural integrity.

# COIL CUTTING & SLITTING SERVICES

Our coil cutting service converts steel coils into sheets or required lengths efficiently and accurately.

## Service Highlights:

High-Speed Uncoiling  
And Cutting

Uniform Length And Width  
Tolerances

Suitable For HR, CR, And GI  
Steel Coils

Improves Handling Efficiency  
And Reduces Downtime

Ideal For Manufacturers And  
Fabricators

We help you receive processed coil material ready for immediate use.

# STEEL TRANSPORTATION SERVICES

We provide safe and reliable steel transportation services within Karachi, ensuring timely delivery from our facility to your site.

## Transportation Features:

Dedicated Local  
Delivery Within Karachi

Secure Loading And  
Unloading

Experienced handling of  
heavy steel material

Timely Dispatch And  
Dependable Logistics

Competitive Transportation  
Rates

**Note:** Transportation services are currently available within Karachi city limits only

# ہماری اسٹیل مصنوعات کا معیار

## ہماری کمپنی معیاری :

اسٹیل مصنوعات فراہم کرتی ہے جو صنعتی اور کمرشل استعمال کے لیے موزوں ہیں۔ ہم گاہک کو ایسا مال دیتے ہیں جو مضبوط، قابل اعتماد اور استعمال میں آسان ہو۔

## اہم خصوصیات :

- |  |   |
|--|---|
| ✓ صاف ستھرا مال، جس میں زنگ یاداغ نہ ہوں | ✓ ہموار اور بغیر لہروں کے شیٹ                 |
| ✓ نرم مال، جو آسانی سے کٹ اور موڑا جاسکے | ✓ موٹائی اور گج پورے شیٹ میں ایک جیسا         |
| ✓ اچھی فینش اور دیرپا مضبوطی             | ✓ فابریکیشن کے لیے موزوں اور کم ویسٹ والا مال |

ہم ہر آرڈر میں معیار کا خاص خیال رکھتے ہیں اور گاہک کو تسلی بخش اور معیاری اسٹیل فراہم کرنا ہماری اولین ترجیح ہے۔

OSMAN HAJI TAYYAB

Thank you for taking the time to review our company profile. We look forward to the opportunity of working together.
